

## **Covid-19 Guidelines for Booth Sales (1.24.22)**

Girl Scouts' number one priority is the safety and well-being of our members and the families and communities we serve. This guidance is intended to be used for volunteers running Booth Sales.

Booth sales happen at other business facilities, and some are scheduled inside, and some are scheduled outside. We must follow rules set by the business. These guidelines are subject to change without notice.

- Adults/girls must adhere to any Covid guidelines or booth guidelines that the store manager may ask of you while in their facility.
- We request that troops wear masks while selling cookies at booths, especially if the booth is indoors.
- Troops must follow any specific rules that stores have requested. If the store has provided additional Covid guidelines for Girl Scout Cookie Booths, those will be posted in Smart Cookies under the notes section.
- Must have between 1 and 3 registered girls work the booth. No more than 3 girls at one table.
- Absolutely NO Tagalongs at booths (no siblings or young children, etc.)
- Troops will bring their own cookies, table, signs, hand sanitizer and cones if needed for drive thru booths.
- Adults/girls must follow all other guidelines found on page 17 of the cookie troop plan book.
